

 For graduates & working professionals

CAREER COURSES IN

AI

Digital Marketing

Software Development

Data Science & Analytics

Cloud

LAUNCHING SOON

Master in-demand skills with mentor-led programs, real projects, and weekday or weekend batches.

Founded by an IIM Raipur alumnus
Sambhaji Nagar, Maharashtra

WHO IT'S FOR

One institute, two **career paths**.

Every DAIT program runs for fresh graduates and for people already in a job. Same curriculum, different timings and depth.

Fresh graduates

- From degree to first job, on a structured track
- Weekday cohorts, Monday to Friday
- Portfolio of real projects to show employers
- Resume, LinkedIn and mock-interview prep

Working professionals

- Weekend cohorts — learn without leaving your job
- Switch careers, or move up in the one you have
- Advanced track: 3-month weekend intensive that skips the basics
- Skills you can apply at work from week one

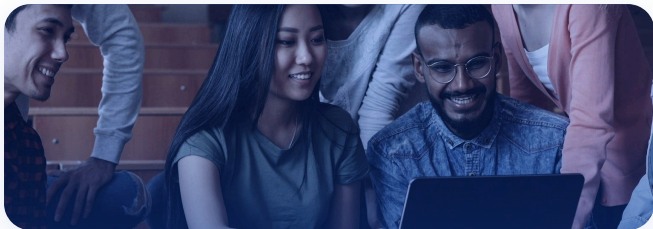

HOW TO JOIN

- 1 Free career counselling.** Talk to an advisor about your background and goals.
- 2 Pick your track.** Foundation or Advanced, weekday or weekend.
- 3 Join a cohort.** Small batches, mentor-led, with real projects from week one.

WHY DAIT

How we train differently.

Amol G. Dhakne

Founder & CMO, DAIT Institute

IIM Raipur alumnus

10+ years in industry

A B2B marketing and pre-sales leader who built teams across the USA, Asia, the Middle East and DACH. He uses Claude, ChatGPT and Gemini every day — the same workflows he teaches at DAIT.

"The true value of AI is not replacing people — it's helping skilled people do better work, faster and smarter."

Founder-led mentorship

Learn from a practitioner, not a rotating panel of part-time trainers.

Live projects

Build real apps, dashboards and campaigns — not slides.

AI-first from day one

Every module uses the AI tools companies hire for today.

Two tracks, your pace

Foundation for freshers, Advanced for working professionals.

Career support that stays

Portfolio reviews, resume, LinkedIn and interview prep.

EVERY PROGRAM INCLUDES

- ✓ Classroom, online, hybrid
- ✓ Weekday & weekend
- ✓ Small, mentor-led batches
- ✓ Capstone project
- ✓ Career & interview prep
- ✓ DAIT certificate

Founding-batch launch pricing. Ask your advisor for fees and the next start dates.

Choose your **track**.

AI-led Software Development

6 months · Beginner-friendly · No coding needed to start

Full-stack development with React, Node.js and AI-assisted coding. Ship deployed apps and graduate with a GitHub portfolio.

TOOLS

JavaScript

React

Node.js

MongoDB

SQL

Git

Copilot

Cursor

YOU'LL BUILD

A live React dashboard, REST APIs, and a full-stack capstone app deployed to the cloud.

ROLES

Junior Full-Stack Developer · Frontend Developer · Web Developer · Software Engineer Intern

Already coding? Advanced track: 3 months, weekends.

Data Analytics & AI

6 months · Beginner-friendly · No maths needed

SQL, Python, Power BI and AI. Turn raw data into decisions and graduate with a portfolio of real dashboards.

TOOLS

Excel

SQL

Python

Pandas

Power BI

Tableau

ChatGPT

YOU'LL BUILD

Power BI and Tableau dashboards, plus an end-to-end capstone on a real dataset.

ROLES

Data Analyst · Business Analyst · BI Analyst · Reporting Specialist

Working with data? Advanced track adds ML: 3 months, weekends.

AI-led Digital Marketing

4 months · Beginner-friendly · Any stream

Performance marketing, SEO, analytics and AI-driven growth on the tools agencies use, with a portfolio of live campaigns.

TOOLS

Google Ads

Meta Ads

GA4

Semrush

WordPress

HubSpot

Canva AI

YOU'LL BUILD

A live Google or Meta ad campaign, a blog post ranked on Google, and a full campaign for a real brand.

ROLES

Performance Marketing Associate · Digital Marketing Executive · Content Strategist

In marketing already? Advanced track: 3 months, weekends.

Cloud, DevOps & Security

Beginner-friendly · No cloud background

SOON

Learn how modern software runs in production, and build and deploy real cloud infrastructure.

TOOLS

Linux

AWS

Docker

Kubernetes

Terraform

GitHub Actions

YOU'LL BUILD

A containerised app, deployed through your own CI/CD pipeline on cloud infrastructure.

ROLES

Cloud Support Associate · Junior DevOps Engineer · Cloud Engineer

Launching soon. Visit our office or call **+91 92848 80032** to register your enquiry.

NEXT STEP

Talk to a career advisor, **free.**

Not sure which track fits? Book a counselling session. We'll look at your background honestly, including telling you if none of our programs is right for you.
